"It's Time Now..."

2716 Old Rosebud Rd, Suite. 160

Lexington, Kentucky 40509

Phone: (859) 263-SLIM (7546) Fax: (859) 263-2388

Julie Swindler, M.D.

Thank you for choosing Medical Bariatrics of Lexington to help you with your weight management needs. We look forward to meeting you!

Our address is **2716 Old Rosebud Rd, Suite 160, Lexington, KY, 40509** off of Sir Barton Way in the **Hamburg** section of Lexington. Please visit our website at: www.lexingtonkyweightloss.com for driving directions, great information on what you can expect, estimated costs, and answers to the most commonly asked questions.

Here are a few things you should know and have ready for this first appointment.

- 1) **Be prepared to have your labs drawn** the day of your appointment. If you have a **copy of blood lab results done within the last three months**, please bring a copy to the office for your first appointment for evaluation and/or comparison. Do not eat or drink anything other than water or black coffee 8 hours prior to the appointment so we can draw **"fasting"** lab work. Non fasting labs may need to be repeated if significantly abnormal. If you would like fasting morning labs done prior to your appointment day or prior to an afternoon appointment, please notify us so we can arrange for you a time to get them drawn. In either case, **please drink a minimum of 4 glasses of water prior to your appointment so that you are fully hydrated, which will make it easier to obtain your blood.**
- 2) **Please do not wear any type of lotion or oil** to this appointment in preparation for your EKG. If you had one done in the past 3 months, please **bring a copy of it**, but remember to still not wear the lotion in case it needs to be repeated.
- 3) Bring a **list of all medications and dosages with you.**
- 4) Please **fill out the enclosed Patient Medical History form, Informed Consent form, Your Rights form, and Rules for Use of Weight Loss Control Medications form** and bring with you to the appointment.
- 5) **Do not wear body suits, spanx, girdles or clothing that constricts tightly.** These clothing articles can affect the accuracy of your measurements and/or weighing process.
- 6) Remember that **payment is required day of service.** While we strive to be accurate in preliminary cost information, variances can occur as a result of your visit. (See website for details.)

Patients paying for services using a credit/debit card carrying a name other than their own (person or business) will be required to have the person the card belongs to come to MBL to complete a Payment Authorization form. At that time, the Driver's License (or other acceptable photo I.D.) of the authorizing Person will be scanned for retention.

- 7) Due to having blood pressure taken and blood drawn, please wear **short sleeves and a loose top.**
- 8) **Some patients like to have before and after pictures taken.** These are optional, but we do provide them without charge if desired. Be prepared for pictures if desired.

Please allow approximately two and one half hours for this first appointment. Because of the length of time you will be here, please do not bring small children to this appointment.

We look forward to meeting you and helping you to achieve your weight management goals.

Sincerely,

Julie Swindler MD & the Staff at Medical Bariatrics of Lexington

Medical Bariatrics of Lexington

| Recurrent vomiting ⁹ | Problems with mood ¹¹ | Onset of obesity < age 5 ¹⁰ |
| Excessive Hunger ¹⁰ | Hearing difficulties ¹⁰ | Wheezing/difficulty breathing |

Please check here if none of the above apply to the child

PAST MEDICAL HISTORY

Patient Name: _____

Pregnancy: Duration of pregnancy of patient: _____

Any gestational diabetes? _____, Excessive weight gain in 3rd trimester? _____, normal, small or large for gestational age? _____

Any other complications with pregnancy? _____

Type of birth delivery: cesarean section or vaginal Birth weight: _____ lb, Height _____ in.

Any complications with delivery? _____

Any birth history of hypotonia? _____, Poor feeding? _____, Developmental delay? _____, Undescended testicle? _____

Newborn: Any significant health concerns as newborn? (eg. anemia, jaundice, respiratory difficulty, infection) _____

Was the child breastfed? _____ For how long? _____

To date, please list history of all major illnesses, hospitalizations, surgical procedures of child including dates.

History of head injury or other major injury? _____

Has this child ever been unconscious or had seizures? _____

Is the child up to date on all immunizations/vaccinations: _____

Date of last Physical/Wellness Exam: _____

Date of last Blood Tests: _____ Place of last Blood Tests: _____

List all allergies, or sensitivities (food, medication, environmental, chemical, etc.) and effect if taken: _____

If female: has period occurred? _____ Age of onset: _____ Any problems with it? _____

Has there been any previous attempt to lose weight? _____ If so, what was tried & the result? _____

FAMILY HISTORY: Place appropriate letter(s) in blank if someone in the child’s family has/had any of the following. (*F=Father, M=Mother, S=Sibling, G=Grandparent*)

- ___ Obesity: Age of start _____ ___ Crohn's disease ___ Autoimmune disorders
- ___ Allergies/eczema ___ Diabetes (1 or 2) or “borderline” ___ Neurological disorders
- ___ Asthma ___ Heart disease ___ Alcoholism
- ___ High blood pressure ___ Epilepsy/seizures ___ Sexually transmitted infections
- ___ High cholesterol ___ Headaches/migraines ___ Drug abuse
- ___ Depression/anxiety/mental illness ___ Stroke ___ Cancer, specify type(s): _____
- ___ Thyroid disorder ___ Sudden death < age 40. From what? _____

___ Any other condition: _____

___ Any childhood medical condition of parents: _____

___ Any history of sexual abuse of parents? _____

___ Any parental history of developmental delay, or cognition (thinking) problems _____

Current weight of mother _____ Current weight of father _____

LIFESTYLE: Please select the following that apply to this child (write N/A if does not apply)

- ___ Stays at home ___ Involved in after-school activities (Ex: _____)
- ___ Daycare (___ days/week) ___ Socializes well with other children
- ___ School (grade level _____) ___ Holds attention while working on a task
- When does child go to sleep and wake up? _____ Any sleep problems? _____
- Describe the child’s **family situation** (number of siblings, parental involvement in child’s life, other people at home, other): _____

Do any other siblings struggle with weight? _____

Has there been and sexual, physical, or emotional abuse of the child? _____ What & when: _____

List any major events in child’s life (death of loved one, divorce, move, school change, etc.): _____

Favorite activities: _____ Fears and anxieties _____

Any concerns about a potential eating disorder, or any previous diagnosis of: (bulimia, binge eating, anorexia) _____

Lifestyle challenges: Which of the following seem to be a struggle:

1. Lack of time for planning food	2. Eating late/waking up eating	3. Eating too fast
4. Comfort/stress eating	5. Liquid calories such as soda/juices	6. Always hungry
7. Food as a reward	8. Specific food cravings like carbohydrates	9. Boredom eating/mindless eating/habit
10. Lots of food at social occasions	11. Picky eater	12. Other:

Physical Activity/Exercise:

Patient Name: _____

Number of minutes of moderate physical activity per day _____

What type of physical activity is being done? _____

Are there any barriers to physical activity (lack of play space, physical disability, etc)? _____

Number of minutes of "screen time" per day (TV, computers, video games, etc): _____

Is there a TV in the child's room? _____

DIET: Please check any of following: ___Mixed diet (animal/vegetable) ___Vegetarian ___ Organic
Please list any food restrictions (dairy, gluten, soy, etc.):

Describe typical food intake for the following meals:

Breakfast:_____ Lunch:_____

Dinner:_____ Snacks:_____

List any foods the child refuses to eat: _____

How many meals and snacks are eaten each day? # of meals: _____ # of snacks: _____

How many servings of fruit are eaten each day? _____

How many servings of vegetables are eaten each day? _____

How many servings a week is red meat eaten (beef, pork, lamb, veal)? _____

How many servings a week is pasta eaten? _____

Number of meals eaten outside of home from restaurants & fast food: _____

Do you think food portion is too large? _____

Number of days per week breakfast is eaten: _____

How many times a week are snacks eaten while watching TV or at computer? _____

Is food seen as a treat? _____

How many meals per week are skipped? _____

Where are family meals usually eaten (Kitchen table, TV room, child's room, on the road, etc.)? _____

How many **ounces** of each of the following are typically consumed each day? (8oz = 1 cup)

Water: _____ Juice: _____ Milk: _____ What % (whole, skim, 1%)? _____

Soda: _____ Diet soda: _____ Sports drinks: _____ What type (Gatorade, etc)? _____

Unsweetened iced tea: _____ Sweet tea or lemonade: _____ Hot tea: _____ Is it decaf? _____

Coffee: _____ is it decaf?: _____ Alcohol: _____ Other: _____ (Name the beverages)

Why do you think the child struggles with weight? _____

Circle patient's readiness to change:

- 1) Pre-contemplation: Patient has no intention to change current behaviors. Patient does not think weight is a problem or doesn't want to do anything about it.
- 2) Contemplation: Patient is aware that a problem exists and is seriously thinking about overcoming it, but has not yet made a commitment to take action.
- 3) Determination: Patient intends to take action in the next month & has unsuccessfully taken action in the past year.
- 4) Action: Patient is already modifying their behavior, nutrition, or environment in order to improve their health.

I have completed this form to the best of my ability in reference to this child's health history. I have stated all known health conditions for this child and will alert the physician of any new condition as it arises.

Informed Consent for Treatment

We want you to know that medical weight loss is an important medical decision in your health care. We are informing you through lectures and printed materials that we strive to work with you carefully and safely to help you achieve a medically significant weight loss. To help achieve this loss and help you in maintaining the weight loss long term, you must understand we may prescribe various different nutritional plans, exercise programs, and when appropriate use medicines short term and long term. You will be informed on how the medicines work, possible side effects, and know possible consequences of the medicines, dietary, and exercise activities planned. Sometimes the use of medicines, length of use of medicine, or medication dosings may be used in an "off label" manner. This means the doctor may be using the medicines safely in a manner other than initially approved by the FDA. The use of meds will always be within the scope of accepted medical Bariatric (weight loss) medicine. Please note that the use of medications for weight loss is optional, and no weight loss treatment (including use of medications) guarantees successful weight loss.

Your Role

1. Provide **honest** and complete answers to questions about your health, weight problem, eating activity, medication or drug usage, and lifestyle patterns to help us help you.
2. Devote the **time and effort** necessary to complete and comply with the course of treatment.
3. Allow us to share information with your personal physician if necessary.
4. Make and keep **follow-up appointments** so that we can help you the best, allowing necessary blood tests as needed. Patients more than 15 minutes late for an appointment may be rescheduled to another day.
5. Advise the clinic staff and dr. of any concerns, problems, complaints, symptoms, or questions you develop.
6. Inform your personal physician of your weight loss efforts and have or establish a primary physician before beginning this program.

Possible Side Effects

1. **Reduced weight.** By reducing your caloric intake, you may see a variety of **temporary and reversible** side effects including, but not limited to, increased urination, momentary dizziness, reduced metabolic rate, cold sensitivity, slower heart rate, dry skin, fatigue, constipation, diarrhea, bad breath, muscle cramps, changes in menstrual pattern, dry or brittle hair, or hair loss. Medication side effects may include any of the above plus dry mouth, mild headaches, and very rarely a racing or pounding heart rate or an elevation in blood pressure or other more rare side effects. This will be closely monitored as safety is our number one priority.
2. **Reduced potassium levels or other electrolyte abnormalities.** We monitor electrolyte levels and correct them if they become too low. If they were not corrected, these can result in muscle cramps, heart rhythm irregularities and other symptoms as above. Always inform us if you are on or begin a water pill. We will be following your levels with occasional blood testing.
3. **Gallstones.** Overweight people are at risk for having or developing gallstones. One study reports that 1 in 10 persons entering a weight loss program may have silent or undiagnosed gallstones. Active weight loss can produce new stones or cause established stones to develop symptoms. The pain is usually in the right upper abdomen and may spread to the back. Gallbladder problems may require medications or even surgery to remove the gallbladder. Notify your primary doctor or us if you develop symptoms of gallstones including abdominal pain, fever, nausea, and vomiting.
4. **Pancreatitis.** Inflammation of the bile ducts or pancreas gland may be associated with gallstones, and may be precipitated by eating a large meal after a period of strict dieting. It may require hospitalization, and rarely can be associated with life threatening complications. Notify us or your primary physician if you develop symptoms such as pain in the left upper abdominal quadrant, fever, or vomiting.
5. **Pregnancy.** Notify us if you become pregnant. Some overweight patients have irregular ovulation and weight loss may increase ovulatory regularity and the chance of becoming pregnant. If pregnant, you must change your diet to avoid further weight loss. A restricted diet can damage a developing fetus. Also, any weight loss medications must be discontinued if pregnancy occurs since we do not want you to continue to lose weight during that time. You should take precautions to avoid becoming pregnant during weight loss.
6. **Sudden death.** Patients with obesity, especially those with associated high blood pressure, diabetes, or heart disease have a higher risk of sudden death and development of a serious potentially fatal disease known as primary pulmonary hypertension. Rare instances of sudden death have occurred while obese patients are undergoing weight loss even in a medically supervised program. No cause and effect relationship with the diet program and sudden death has been established.
7. **Risk of weight regain.** Obesity is a chronic condition. The majority of patients who lose weight have a tendency to regain unless in some type of maintenance program and long-term efforts at controlling the weight are continued. We will provide you with a maintain plan and plan to help prevent weight regain.

Your Rights and Confidentiality

You have the right to leave treatment at any time without any penalty, although you do have a responsibility to make sure we know you are discontinuing treatment. Your personal physician must be able to assume your medical care. From time to time, patient treatment information is used in the collection of statistics to compare results, and improve the treatment of obesity. This information may be shared with other practitioners, researchers, and the scientific and medical community. Strict confidentiality of individual personal information and records will be maintained. Please note that our Physicians do not take calls outside MBL's office hours. If you feel you are experiencing a medical emergency **at any time**, go to the nearest emergency room immediately for treatment.

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED, HOW YOU CAN GET ACCESS TO THIS INFORMATION (HIPAA)

Uses and Disclosures of Information that We May Make Without Written Authorization: For treatment, payment, healthcare operations, as required by law, abuse or neglect, or communicable diseases, public health activities, health oversight activities, judicial and administrative proceedings, law enforcement, organ donation, research, workers compensation, appointments and services, marketing, business associates, military, inmates or person in police custody, coroners, medical examiners, funeral directors.

Uses and Disclosures of Information That We May Make Unless You Object: We may use and disclose protected health information in the following instances without your written authorization unless you object. (Disaster Relief & Persons Involved in your case.)

If you object, please notify the Privacy Contact identified at the end of this document.

Persons Involved in Your Health Care: Unless you object, we may disclose protected health information to a member of your family, relative, close friend, or other person identified by you who is involved in your health care or the payment for your health care. We will limit the disclosure to the protected health information relevant to that person's involvement in your health care or payment. We may leave messages for you to call us or leave basic lab test results on your home phone unless you direct otherwise.

Notification: Unless you object, we may use or disclose protected health information to notify a family member or other person responsible for your care of your location and condition.

Person(s) Authorized to Receive Information _____

Physician Office(s) Authorized to Receive Medical Information _____

Medical Residents, Medical Students, and Training Physicians may observe or participate in your treatment or use your PHI to assist in their training. You have the right to refuse to be examined, observed, or treated by them.

Newsletter and Other Communications - We may use your PHI to communicate to you by newsletters, mailings, or other means regarding treatment options, health related information, disease management programs, wellness programs, or other community based initiatives or activities in which our practice is participating.

Your Right Concerning Your Protected Health Information: You have the following rights concerning your protected health information. To exercise any of these rights, you must submit a written request to our Privacy Officer.

1. To request additional restrictions.
2. To receive communications by alternative means.
3. To inspect and copy records.
4. To request amendment to your record.
5. To request accounting of certain disclosures.
6. To receive a copy of our complete confidentiality notice. (Electronic copy found on our website.)
7. To receive a copy of the bill to submit to your insurance. We will code your visit as medically correct as possible. Please note in rare instances a new diagnosis or prescription that you submit to your insurance may affect your insurability and or your insurance rates.
8. To receive notice of a breach
9. Right to restrict certain disclosure to your health plan.

Complaints You may complain to us or to the Secretary of Health and Human Services if you believe your privacy rights have been violated. You may file a complaint with us by notifying our Privacy Officer. All complaints must be in writing. We will not retaliate against you for filing a complaint.

Changes to this notice are located at MBL website: lexingtonkyweightloss.com

Entities to Whom This Notice Applies: This notice applies to the Medical Bariatrics America, their associated clinics, the physicians, employees, and volunteers who work there.

Privacy Officer Contact: If you have any questions about this notice, request a copy of the complete notice or if you want to object to or complain about any use of disclosure of exercise any right as explained above, please contact our Active Medical Director at Address: 2716 Old Rosebud Rd. Ste. 160, Lexington, KY 40509 (859) 263-7546

I, the undersigned, have reviewed this information on the front and the back page of this document, and have had an opportunity to ask questions and have them answered to my satisfaction.

RULES FOR USE OF WEIGHT LOSS CONTROL MEDICATIONS

NOTE: SIGNING THIS FORM DOES NOT GUARANTEE THAT YOUR PHYSICIAN WILL FIND YOU TO BE AN APPROPRIATE CANDIDATE FOR WEIGHT LOSS MEDICATIONS, BUT ONLY THAT YOU HAVE READ, UNDERSTAND, AND AGREE TO THE TERMS OF MEDICATION USE SHOULD YOU AND YOUR PHYSICIAN DECIDE UPON THEIR USE NOW OR IN THE FUTURE.

Many weight loss medications are considered "controlled medications." By law, a controlled medication can only be received from one facility at the same time. I agree that only Medical Bariatrics will prescribe scheduled weight loss medications for me. I agree that it is my responsibility to inform my doctor and any other doctors from whom I receive treatment of this contract, and that it is my responsibility to inform any and all doctors from whom I receive treatment if I am prescribed and/or taking any scheduled medications. Medical Bariatrics may also notify my other doctors of the terms of this contract.

I understand that the use of weight loss medications is contraindicated with certain medical histories, allergies, or other medication use. I agree that I will be completely honest in disclosing this information & will notify my MBL physician of changes to my medical history or new medication usage. I understand that failure to do so can be dangerous to my health.

I agree to take the medication only as prescribed by Medical Bariatrics. I understand that taking medications in any way other than prescribed may be dangerous to my health. I understand medications are typically only considered after a trial of weight loss with only nutritional/behavioral changes. If benefit outweighs the risks after this point, the lowest effective dose will be tried prior to increasing dosages.

I agree to arrange for prescription refills for scheduled medications from Medical Bariatrics only during regular clinic hours. I understand that controlled medications are not refilled in advance to time of refill. Medications are typically dispensed only in one month increments and only via physician approval during physician appointment with appropriate vital signs. I understand that missing my appointment may mean being out of the medications for a small time period as controlled medications are not refilled via phone. I understand that Medical Bariatrics is not obligated to replace any medications or prescriptions that are lost or stolen for any reason.

I understand that medication prescriptions can be filled typically at MBL or another pharmacy of my choice. If I use a pharmacy other than MBL, I agree to use only one pharmacy to fill any weight loss scheduled prescriptions and I give my permission for Medical Bariatrics to notify area pharmacies of the terms of this agreement.

I will not use any illegal drugs or substances. I will not obtain or use any controlled substances illegally.

I will not share, sell, or trade my medication with anyone. I understand doing so is illegal, will result in my discharge from my physician's care, and may cause harm to the other person including possible death. I will not allow any other individual to take my medication under any circumstances.

I understand that the use of many weight loss medications beyond 3 months is considered off-label usage.

I understand I am to report any side effects or adverse reactions of medications to my MBL provider.

I authorize my MBL physician and my pharmacy to cooperate with any investigation of my drug use by legal authorities. This includes, but is not limited to, the release of my medical and pharmacy records and answering questions about me.

My physician may sometimes taper and/or stop my medication to evaluate its effect on my weight loss and/or hunger and health. I will continue to comply with all parts of the agreement during those evaluation periods.

Phone: (859) 263-SLIM (7546)

Dr. Julie Swindler, Medical Director

I understand that Kentucky law requires physicians prescribing controlled medications (including weight loss medications) to monitor patients' use of these medications. This monitoring includes an initial drug screening panel & KASPER report. I understand KASPER reports list what controlled substance prescriptions I have filled in the past several years. Further monitoring may include random drug screens, random pill counts, and repeat KASPER reports every three months while in the MBL program. Therefore, I understand that I am to bring in my unused weight loss medications to my appointments as they may be randomly required. I will cooperate with random pill counts. I will allow random drug tests of my urine and/or blood. I understand that I am responsible for any cost of them. I understand that this required monitoring could result in the delay and/or inability of my physician to prescribe these types of medications to me.

I understand that weight loss medications may assist in weight loss, but that there is no guarantee they will do so. I understand weight loss medications can only be used with proper nutritional and behavioral changes. Failure to comply with nutritional and behavioral changes may result in physician discontinuing medication. If weight loss is not improved with use of medications, I understand my physician will need to stop or change medications.

I understand my physician can discontinue weight loss medications at any time & will do so if weight loss plateaus. I understand that if weight loss medications are used, the plan is to use them only during weight loss, and then to taper off of them once goals have been met. I will be evaluated monthly to see if medications can and should be refilled.

I understand that weight loss medications are just one option to assist in weight loss, but are not required to lose weight. There are many options for weight loss although all patients will be instructed on nutritional, behavioral, and psychological changes. Just like any medication, weight loss medications can have a risk of side effects. Such side effects may include (but are not limited to), dry mouth, constipation, anxiety, jittery sensation, headache, insomnia, allergic reaction, heart palpitation (rare), elevated blood pressure (rare). Addiction is listed as a potential side effect (although this has not been reported if used as prescribed.) I understand it is my responsibility to notify my MBL physician if I have any side effects.

If weight loss medications are used over 1 month, they should be tapered off unless you become pregnant or have a serious side effect from the medication in which case they can be stopped immediately. Failure to taper off of weight loss medications may result in rebound hunger, fatigue, depression, gain in weight, and other symptoms. I understand that if I desire to discontinue medications for any reason (including simple inability to continue program), I will contact MBL to obtain a proper exit plan based on my current medical conditions.

Unused medications may be returned to MBL for proper disposal, or follow the guidelines at www.fda.gov/consumer. These guidelines are also posted on MBL's website under the patient portal.

Females only: I certify that I am not pregnant. I agree and understand that I must notify my prescriber if I plan to become pregnant or am unsure if I am pregnant. I agree not to take weight loss medications if I become pregnant.

My signature placed on this contract indicates that I fully understand each statement and have had the opportunity to ask any questions pertaining to this. All of my questions have been answered to my satisfaction. I understand that if I break any part of this agreement, I may be discharged from my provider's care.

Medical Bariatrics of Lexington

"It's time now"

2716 Old Rosebud Rd, Suite 160, Lexington, Kentucky 40509

Phone: (859) 263-SLIM (7546)

Dr. Julie Swindler, Medical Director

FINANCIAL OPTIONS

Payment is due at time of service.

MBL accepts cash, checks, Visa, MasterCard, Discover, or Care Credit as payment.

Checks

Checks will not be held for deposit at a later date than the day of service.

Checks are processed through ECHO (an Automated Clearing House), which requires use of your Driver's License for verification.

There will be a \$25 fee for any returned checks.

Returned checks not paid in a timely manner are processed through the Fayette County Attorney's office, which results in an additional \$50 charge to the patient by them.

Credit/Debit Card (including HSA/Flex account cards)

If paying by credit/debit card, the card must bear the patient's name (photo id to be presented).

Payments to be made using another person's credit/debit card must have written authorization on file in our office no later than the time of the first visit. Photo id must also be presented for the person authorizing the charges.

Care Credit

Care Credit is a credit card exclusively used for healthcare services. With Care Credit, you can get a No Interest plan if paid in full within 6, 12, 18, or 24 months on services paid for with your Care Credit card. Interest will be charged to your account from the purchase date if the promotional balance, including optional charges, is not paid in full within 6, 12, 18, or 24 months or if you make a late payment. Minimum monthly payments required. The length of time you have to pay depends on the promotional payment plan that you choose when you use the card.

If interested in establishing a Care Credit account, please notify us at least 48 hours in advance of your scheduled appointment so we can explain how you can sign up for the account. Applications and acceptance for Care Credit should be completed prior to your appointment time.

MBL does not delay processing of office visit charges pending Care Credit approval.

Missed appointments, or appointments not cancelled 24 hours in advance may be charged at a \$65 fee, due at the next visit or billable if treatment is discontinued.

If payment is not made for any reason, you agree to pay any fees incurred while collecting payment, including up to an additional 40% of the balance if the account is placed for collections with a third party agency.

I understand that payment is due at time of service or and may include charges incurred for No Show appointments. Checks will not be held for deposit at a later date. I also understand that if payment is not made, I agree to pay any fees incurred while collecting payment along with a \$25 fee for any returned check. Guarantor (myself) understands that I will be responsible for the balance and up to an additional 40% of the balance if the account is placed for collections with a third party agency. I understand that MBL does not file medical insurance claims and cannot guarantee that insurance will reimburse for services provided. I understand MBL physicians have additionally opted out of Medicare payment benefits, thus Medicare may not reimburse you for services provided here. You are responsible for notifying us if you receive Medicare for further required information. Please sign here to confirm your responsibility.
